What is TTP Pricing

A number of supports in the Assistance with Daily Living Support Category and the Social, Economic and Community Participation Support Category are in the scope of the Temporary Transformation Payment (TTP).

The Temporary Transformation Payment (TTP) is an additional cost providers can charge as they continue to transition to working under the NDIS. The TTP is a charge on top of the base rate price limit for attendant care and community and centre-based activities.

How does TTP work?

Under each support item a loading of 3.0 % has been added. This loading will reduce by 1.5% each year. Every support item that the TTP applies to (attendant care and community access) has two support items and two price limits:

The non-TTP items should be used by providers who are not compliant with the TTP conditions. The TTP items should be used by providers who are compliant with the TTP conditions.

Chorus Business Rule: It is a recommendation that when we need to recruit staff to provide this service, we will utilise TTP Pricing as per the most recent pricing guide indicated by the NDIS.
